About Us

NATUREL MEDICAL PHARMA was founded by Ahmet ALTAYLAR in **2006** with an understanding 'the personnel and the customers are the real owners of the company'

NATUREL MEDICAL PHARMA combined strong business mentality, long years of experience, optimistic approach, and production technology with its professional and dynamic managing team. In this way, it placed itself among the effective and valuable companies in the medical / health market in and out of country.

NATUREL MEDICAL PHARMA is a company which completely depends on its own capital. The plants have the production lines to manufacture the products for hospitals, pharmacies, and markets which mainly cover MEDICAL GROUP, DISINFECTANT GROUP, ANTISEPTIC (BIOCIDAL) GROUP, OTC GROUP, and COSMETICS GROUP.

NATUREL MEDICAL PHARMA started its operations in the fields of hospital and pharmaceutical products in 2006 and it grew rapidly with continuous investments since then. In this period of more than 11 years, it has become one of the major players in the market. With the aim of becoming stronger in its sector, it set new global targets in 2017. On its way to become one of the leading international manufacturers and suppliers, it is expanding its share in the global market.

It has clean room and laboratory on-site which work under the terms of GMP, manufacturing department with fully automatic production lines, along with the CE and FDA Certificates, ISO 9001-2008, and ISO 13485.

With constant investments in R&D department, our factory has the ability to manufacture safe, quality and custom made products and we keep adding new products in our range.

Ultrasound & ECG Gel

ECG GEL

Used for all kinds of ECG and effort tests, gel-free electrode, ECG latch and Suction Cup Electrodes. A clean way to allow transfer ECG waves.

TECHNICAL PROPERTIES

- 1- Hypoallergenic
- 2- Does not irritate skin
- 3- Does not contain oil and oily substance
- 4- Does not contain formaldehyde and salt
- 5- Does not contain toxic effects
- 6- Odor-free

Ecg Electrodes (adult and child)

- 1-Foam
- 2-Solid gel
- 3-AgCl

Thermo Gel

Hot & Cold Compress

HOT & COLD GEL

Due to the nature of the gel in a pack, the product does not freeze in the freezer and stays stable for a long period of time. Cold gel is applied on sprained ankle, bumps, falls, migraine and various pains, mild burns, patients with fever and other situations where cold compress is needed. Hot gel is applied on joint pains, and other situations where hot compress is needed. The packaged product can be used repeatedly for a long term.

N20 Conductive EEG Paste

N20 CONDUCTIVE EEG PASTE

Used for Brain EEG capturing under EEG electrodes. Thanks to the included active substances of conductivity, it provides comfortable sticking for the electrode on hair strand.

Technical Properties

It is hypoallergenic, water-soluble and easy to clean. It does not irritate skin. It has no toxic effects and odor.

N20 Skin Prep Gel

N20 SKIN PREP GEL

To achieve quality tracings, proper skin preparation at the electrode site is crucial. N20 skin prep gel's mild abrasiveness strips away the top layer of skin and moistens the underlying skin layer. This action lowers the skin impedance with minimal skin irritation and patient discomfort.

Collodion Elastique

Highly Effective Solution To Cure Fungi and Callus

It is based on collodion acetate
It relieves and saves from fungi and callus

Hand Sanitizer Gel

Highly Effective Hand Sanitizer

It is effective to clean hands
It kills 99.99% of bacteria

It is manufactured in different flavors

GROUP CODE:
130

ISO | GMP
